#### Dropping a Course

Students must submit a written request signed by a parent/guardian and obtain administrator approval to drop a course. In making the decision the administrator shall at minimum consider the following factors:

1. Appropriate placement with regards to academic abilities and designated course selection option;
2. Class availability of desired replacement course (full sections/schedule conflicts): and
3. The degree to which the request is arbitrary and capricious.

Students who drop a course after the first 10 school days of a semester will receive an "F" grade, which will appear on their transcript and be figured in their grade point average. However, changes to a course of a lower or higher difficulty in the same subject area may occur with approval of the administrator and the teacher after the first 10 days without receiving an "F" grade.
